Jody Klann

The Victoria College
2200 E. Red River Street
Victoria, TX 77901

Jody.klann@victoriacollege.edu

Education:

University of Wisconsin-Waukesha A.A.S. Associates of Arts and Science 1995

Arizona State University B.S. Conservation Biology 2000

Arizona State University M.Ed Education Curriculum and Instruction Concentration: Science Education 2002

University of Florida M.S. Concentration: DNA and Serology 2009

Western Kentucky University M.S. Biology (18 credits) expected graduation Dec. 2013

Employment:

2013- Labpaq Board of Advisors (Colorado) I currently serve on the Labpaq Board of Advisors. I help to write and review current labs.

2013-Current Victoria College (Texas)
Online Biology Instructor: Environmental Biology

2009-Current Truckee Meadows Community College (Nevada)
Online Biology Instructor: Marine Biology and Anatomy and Physiology I & II

2002-Current Maricopa Community Colleges (Arizona)
Online Biology Instructor: Marine Biology, Anatomy & Physiology I & II and General Biology

Adjunct Biology Professor /One Semester Only Full Time Faculty Phoenix College Spring 2006

Write and teach curricula for college biology classes. Direct and write labs while assisting students in writing scientific lab reports for the experiments performed.

Courses taught:
- Introduction to Biology (campus & online)
- Environmental Biology (campus and online)
- Marine Biology (campus & online)
- Biology for Allied Health (campus and online)
- Introduction to Anatomy and Physiology (campus & online)

Biology for Majors I (campus and online)
Biology for Majors II (campus and online)
Anatomy and Physiology I (campus & online)
Anatomy and Physiology II (campus & online)
Microbiology (campus & online)

2007
Instituto Chileno Norteamericano
English Professor

Independant Professor:
English/Biology Lecturer/Professor
Give lectures on technical aspects of biology. Work jointly with the governmental agency SOFOFA teaching at companies such as Copefrut (the largest fruit company in the VII region) and Cementos Bio Bio.

2006
Northern Arizona University
Adjunct Biology Professor
Wrote and taught curricula for college biology classes.
Courses taught: Special Topics: Animal Diversity
Environmental Biology

1999-2006
Phoenix Zoo
Education Coordinator: Organized school group presentations. I was in charge of animals used for educational programs on and off zoo grounds. Wrote curricula used for educational programs. I wrote animal usage protocol which met USDA regulations. I trained animal caregivers on proper animal handling procedures and regulations.

Research, Skills and Special Interests:

Bilingual: Spanish

Co-Founder and Lead Biologist for *M.A.R.* Marine Animal Rescue is dedicated to preserving, rescuing and rehabilitating marine species in the northern 8th region of Chile. We also work to educate the local people about the needs of marine species. We are currently working with biologists from the University of Concepcion to determine the toxic effects of the cellulose waste on the Sea Lion colony of Cobquecura which happens to be one of the largest sea lion colonies in Chile. We are also working to help prevent overfishing and the senseless killing of sea lions and other species in nets.

Masters Research Arizona State University, Thesis: *The Internet as an educational tool an Interactive website: Endangered Species.* 2000

Science Mentor: Dynamic Learning Teacher Education Program South Mountain Community College 2002

Steele, Bronwen & Klann, Jody *KWL Study Guide: A Tool for Students. How to Effectively Learn Scientific Concepts*. Mcli Grant: Estrella Mountain CC 2003

Distinguished Adjunct Certificate, Gateway CC 2006 & 2010 & 2012

Biology Instructor of the Year: TMCC 2012

Independent: Giant Panda Research Wolong Nature Reserve, Wolong & Chengdu China 2006
