Young builders will experience a creative, engineering environment and will have opportunities for hands-on construction with Lego kits not found in stores. Under the guidance of a Texas certified educator along with detailed technical plans to follow, students will build robots, traffic lights, race cars, four-by-four trucks, cranes, pulleys, levers, and more during this energized week of discovery with Legos! Motivated by fun, creativity, and success, builders will expand their knowledge of math, science, and STEM technology in an exploratory hands-on cooperative environment.
