

Student-Centered Achievement

03 Feb 2026

A Student-Centered College

Victoria College (VC) reviews comprehensive improvement efforts through the lens of being a student-centered college - putting our students first in the decisions we make. Ensuring Texans throughout our service area attain the knowledge and skills needed to pursue career and transfer pathways of their choice, develop a sense of self, and become active and contributing members of their communities and our great nation.

Aligned with [Talent Strong Texas Pathways](#), student achievement is studied through economic resources (Pell), academic preparation (Texas Success Initiative), full and part time enrollment, First Time In College student (FTIC), and student demographics. In the case of annual measures, not all demographics make sense to consider (e.g., a student may be full time in fall yet part time in spring). Thus, measures reported annually may have fewer indicators.

NSC Completion Rate

In 2018, VC selected the National Student Clearinghouse (NSC) Total Completion Rate as one of our completion measures. The methodology of this count tracks students from an entering first-time cohort at VC. The cohorts are tracked through any transfers and seeks to measure degree or certificate completion within a six year timespan. The mixed enrollment cohort is comprised of first time students who change intensity in their first year.

- Goal/Target: 2 points above the national average for two-year institutions.
- Threshold: 2 points below the national average for two-year institutions.

Student Survey Results

<http://www.ccsse.org/aboutsurvey/aboutsurvey.cfm>

CCSSE and SENSE are normed to a score of 50. Thus, above 50 represents performing in the top half of colleges. While the disaggregate data displayed in each question is compared to the peer group of small colleges, for this overview, above/below 50 is the target/threshold.

- Target: Meet or exceed top performer averages.
- Threshold: Below 50.

Glossary of Terms

- ABC Rate: Student-course-enrollments earning passing grades of A, B, C, or S. In an imaginary world of one student enrolled in two classes where the earned grades were an A and a D, the ABC rate would be 0.50.
- DE / Dual Enrollment: A student enrolled in both college and in a K-12 (usually High School) student. DE students do not necessarily take a college course that counts for high school credit, so not all DE students earn dual credit.
- Early Momentum

- Ethnicity: Follows [IPEDS](#) definitions with the exception that smaller populations are combined into the Other category to preserve privacy.
- FTIC: First Time In College An entering student who has never attended any college. Also includes students who entered with advanced standing (college credits earned before graduation from high school). Students who have not completed their high school work are not included.
- Gender: Student self-reported gender
- Pell: Federal [Pell](#) Grants usually are awarded only to undergraduate students who display exceptional financial need and have not earned a bachelor's, graduate, or professional degree.
- Persistence: FTIC students who persist from fall to spring or fall to fall semesters.
- Time Status: FullTime students take 12 or more credit hours per long semester. Students who are PartTime are more likely to support one or more dependents and have full-time life commitments (e.g., family, work-for-pay, etc).
- Transfer: Transfer from VC to a 4-year institution.
