The VC Testing Center is now offering remote TSI Assessment 2.0 testing.

Accuplacer has partnered with Examity, a secure online proctoring service, for remote testing for the TSI Assessment 2.0. Cell phones and tablets are not compatible for remote TSI Assessment 2.0 testing. If you do not have the computer hardware to test remotely, in-person testing is available at the Victoria College Testing Center.

- Examity has proctors available to test 24 hours a day, 7 days a week.

- Starting 9/1/2020, *Students are responsible for the $25 Examity proctoring fee. This additional fee is paid separately and is not associated with Victoria College's $12 TSIA2 exam fee.*

- View Examity's computer requirements to ensure compatibility before requesting to take your TSI Assessment 2.0 using Examity.

- If you need to take multiple sections of the TSI Assessment 2.0, please be aware that Examity does not allow for breaks and the test must be completed in a single sitting.

- To request to take your TSI Assessment 2.0 using Examity, use the Appointment Plus scheduling system to create an account and pay the $12 test fee under the test section "Examity Remote TSI." You MUST indicate which sections of the TSI Assessment 2.0 you need to take. Failure to do so will result in delays for processing your voucher. **Please note**: This DOES NOT schedule your exam date and time, it is only for payment and processing.

- Once VC's Testing Center receives your payment and test information, your request will be processed and you will receive your voucher information in **an email from Accuplacer** along with instructions on how to proceed on the Examity site. You will then create an Examity account, schedule the date and time for your exam, and pay Examity's proctoring fee. Learn more about how to use Examity.
